

xenic

## xenic

Taking off in full flight is our latest addition of our impressive line of office chairs. A chair gifted by nature as our designer (Joe Leong) was fully inspired by the dance of the multi-colored butterfly... that its wings are now fully supporting and caressing the lumbar for a comfortable seating posture.

Xenic transformation from nature's eco-environment in the insect world has humanised our latest products allowing us to cocoon in our seats while we perform our best...

# xenic

## VERSATILITY YET ADAPTABILITY

With numerous options to support a range of task and collaboration needs, Xenic offers a wide-ranging of possibilities to style your office chair in any environment, from conference room, corner offices to reception area....
